Bluetongue Statement

Bluetongue Important Information for Livestock Exhibitors

The Winter Fair Committee is pleased to welcome livestock exhibitors from across the UK.

From 21st September 2025, the Welsh Government will ease some animal movement restrictions, whereby animals coming from the Restricted Zone (RZ) that have completed a full course of any BTV-3 vaccine and show no signs of illness will be allowed to enter Wales without a pre-movement test.

What This Means for Exhibitors:

Exhibitors from Wales and Scotland

- While **vaccination is not currently mandatory**, exhibitors are **strongly recommended** to vaccinate their animals against BTV-3. This is a precaution in case the disease situation changes and future restrictions require vaccination.

Exhibitors from the Restricted Zone (RZ) in England:

- You **can attend as normal**, provided your animals are **fully vaccinated** against BTV-3. You will be required to complete a declaration form confirming that your animals have been vaccinated and you must report your use of the BTV vaccine via the UK Government website: <https://www.gov.uk/guidance/report-your-use-of-the-bluetongue-serotype-3-btv-3-vaccine>

Carcass Lambs

- **These do not need to be vaccinated.**

Please be aware that this policy is subject to change and remains under continuous review.

All exhibitors must comply with the animal movement regulations set by the Welsh Government and their respective national governments.

We thank you for your understanding and look forward to welcoming you to the Winter Fair.

Therefore, in order to show your animals, we require proof of BVD testing and negative status when cattle arrive. This can be at a herd level or individual animal level. This requirement will ensure that all cattle shown at this year's show will be BVD tested, ensuring no PI animals are present.

The following documentation will be accepted as proof of BVD status:

Recognised Accredited Herd Status Certificate

Individual animal result – Negative (antigen)

Blood tested as a Calf – with a negative result

You will need an individual BVD antigen result for the animals you are showing (test can be done through blood samples or tissue tagging).

Important – Herd status (antibody results) must be current – no older than 12 months before the date of arrival at the show.

* Vaccination against BVD is recommended but not compulsory.

FFLIW CEFFYLAU ♦ EQUINE INFLUENZA

The society expects all equine entries to have an up-to-date equine influenza vaccination record. Following advice from animal health professionals and the prevalence of the Equine Flu in the summer of 2019, the Society Officials have made the decision to allow only horses vaccinated against Equine Flu to attend the 2025 Winter Fair.

The Society expects all equine entries to have an up-to-date equine influenza vaccination record. They must have received two primary vaccinations which are given not less than 21 days and not more than 60 days apart.

If sufficient time has elapsed the equine entry must also have received a booster vaccination which is given not less than 120 days and not more than 180 days after the second component of the primary vaccination, and further booster vaccinations at intervals of not more than a year apart.

None of the vaccinations must have been given on the day of entry to the showground or on any of the six days before entry to the showground.

Note: Minimum requirements are the two primary vaccinations, plus seven days before entry to the showground. Foals six months of age or older must meet the minimum equine influenza vaccination requirement.

Note: Minimum requirements are the two primary vaccinations, plus seven days before entry to the showground. Foals born during the year of the Winter Fair are given special dispensation to enter the show i.e., foals from vaccinated mares born in 2025 will not require vaccination.

Please note that spot checks will be carried out and disciplinary action will be taken if an exhibitor is not compliant.

TALIADAU STABL • STABLE FEES

Stables will be provided in accordance with the requirements below and exhibits must be stabled in the box allocated. Stables are to be used for equines only. In cases of emergency, the Society will not be held responsible for the equines if they have to be let out of their stables. Stables are not transferable between exhibitors.
